The TASER X26P is a strong addition to any civilian self-protection plan. It is the same innovative tool used and trusted by law enforcement agencies around the world. Equipped with a durable holster and rugged carrying case, the X26P is suited for both home-defense and professionals such as security personnel or delivery drivers.

#### Accessory Features:

- **Neuro-Muscular Incapacitation (NMI)** - temporarily overrides an attacker's central nervous system, limiting muscular control for 5 seconds
- **15-foot safety range** - gives you ample space to make a safe escape
- **Class 3R LASER targeting**- paired with powerful LED flashlight, targets are hard to miss
- **Blackhawk Holster**- ensures comfortable and secure carrying, this Kydex holster is the same one trusted by law enforcement
- **Contact stun**- added insurance in those close encounters
- **Long-Life Replaceable Battery**- providing approximately 500 5-second firings, your X26P is ready when you need it
- **Legal to Own, Legal to Carry**-no license needed in most states

#### Package contains:

- One TASER X26P conducted electrical weapon
- 2 TASER X26P Cartridges
- Performance power magazine (PPM - this is not a rechargeable battery)
- Right-handed Blackhawk holster
- Conductive practice target

#### Dimensions:

- Height: 3.2 inches
- Length (w/ Cartridge): 7.3 inches
- Width: 1.3 inches

The X26P is a strong addition to any civilian self-protection plan. It is the same innovative tool used and trusted by law enforcement agencies around the world. This means it can be effective against even the most aggressive assailants, or persons under the influence of drugs and/or alcohol. Equipped with a durable holster and rugged carrying case, the X26P is suited for both home-defense and professionals such as security personnel or delivery drivers.
